

UltimateKitchens

Kitchens | Bedrooms | Living Spaces

Welcome...

Ultimate Kitchens is one of the leading local kitchen brands with all of our kitchens being manufactured in our 20,000 square foot factory facility in Peterborough. This gives us the benefit of being in full control of our supply chain allowing us to offer the highest quality products, at affordable prices, along with a truly made to measure service.

We understand that planning a new kitchen or bedroom is a very exciting time and you want it to be as individual as you are – which is why we meet each customer face to face to assess your needs and create a design that suits your own lifestyle, providing a personalised and comprehensive service. Our friendly and skilled team are with you every step of the journey to welcome you to the Ultimate family and give you your dream kitchen or bedroom.

Please let this brochure guide you through our exquisite ranges, carefully developed with the latest innovations, finest materials and at a price that you can afford.

We hope that you find what you have been looking for...

Made in Britain

Factory

All of our cabinets are produced in our own factory in the UK. This gives us the hands on benefit of being able to closely manage the quality of the products that we are producing and to ensure that they meet our high standards at all times. All cabinets are made with double sided 18mm colour co-ordinated boards to match or complement your doors and all come with soft-closing hinges and drawers as standard. Special sizes and requirements along with over 117 different colours are all options available with us.

Bespoke - Made to Measure

Most of our kitchens and bedrooms are made to measure allowing us to ensure that every inch of space in your room is used to it's full potential. Standard off-the-shelf sizes can mean that unused 'void' areas are left in the room but our bespoke option allows us to transform any area, of any size, by making cabinets the perfect size to fit the space available.

Cabinet Construction

- 1 18mm solid backs.
- 2 All cabinets are made from double sided 18mm colour co-ordinated board to complement or contrast to your chosen doors. Our cabinets are available in over 117 different colours.
- 3 8mm beech dowels to add strength to the joints.
- 4 Blum® LEGRABOX soft close drawer system with a 16mm solid base and back panel; as standard.
- 5 Blum® CLIP top BLUMOTION soft close hinges eliminate the noise of slamming to enhance the quality of your cabinets.
- 6 Fully adjustable colour co-ordinated shelves.
- 7 150mm adjustable legs for uneven floors.

Cabinet Guarantee

We are very proud of the workmanship that goes into the cabinets that we build and are so confident in the rigidity of them that we offer a 25 year cabinet guarantee. In the unlikely event that, subject to day-to-day wear and tear, the cabinets should not be fit for purpose we will repair or replace the faulty cabinet for a period of 25 years from the date of purchase. Terms and conditions apply.

*Cabinet warranty excludes door/drawer fronts and handles - shown for illustration purposes only.

Made to Measure

Alternative sizes are available to create a bespoke space.

Made in House

These products are made in house in our UK factory.

Bedrooms Available

Bedrooms are available in select ranges.

Selected Colours

A wide variety of standard colours are available in specified ranges.

See pages 138-151 for finish options

Paint to Order

A large number of our ranges are suitable for painting, simply select any colour from our standard colour palette.

See page 145 for standard colour palette

Colour Match

All our paintable ranges can be matched to a specified colour using BS (British Standard) or RAL (European Standard) colour references.

Aldana

The stunning simplicity of the Aldana shaker door is accentuated by its narrow frame. Its authentic painted woodgrain finish and wealth of accessories makes Aldana an ideal choice for both classic and contemporary settings.

Handleless Rails

Complementary or contrasting, whatever your personality you can create a true handleless kitchen that's as striking as it is sleek; with rails available in a selection of finishes.

Handles:
Handleless Rails
Finish: Brushed Brass

Furniture range:
Clifden Heritage Green

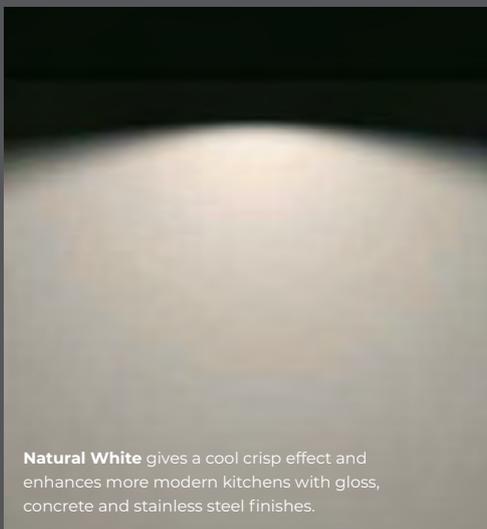

A carefully considered kitchen lighting scheme can completely transform the look and feel of your space. From prepping a meal for the family, to entertaining friends around the table, your choice of lighting not only sets the mood, but it can also enhance key design features within the kitchen itself. We offer a range of LED lighting solutions to meet both your practical and aesthetic needs.

Colour Temperatures

LED's are available in two colour temperatures, Warm White and Natural White. The colour you choose can have a major impact on the overall look and feel of your kitchen space.

Warm White emits a yellow tone and naturally brings out the softer tones in painted kitchens with timber worktops and traditional tile finishes.

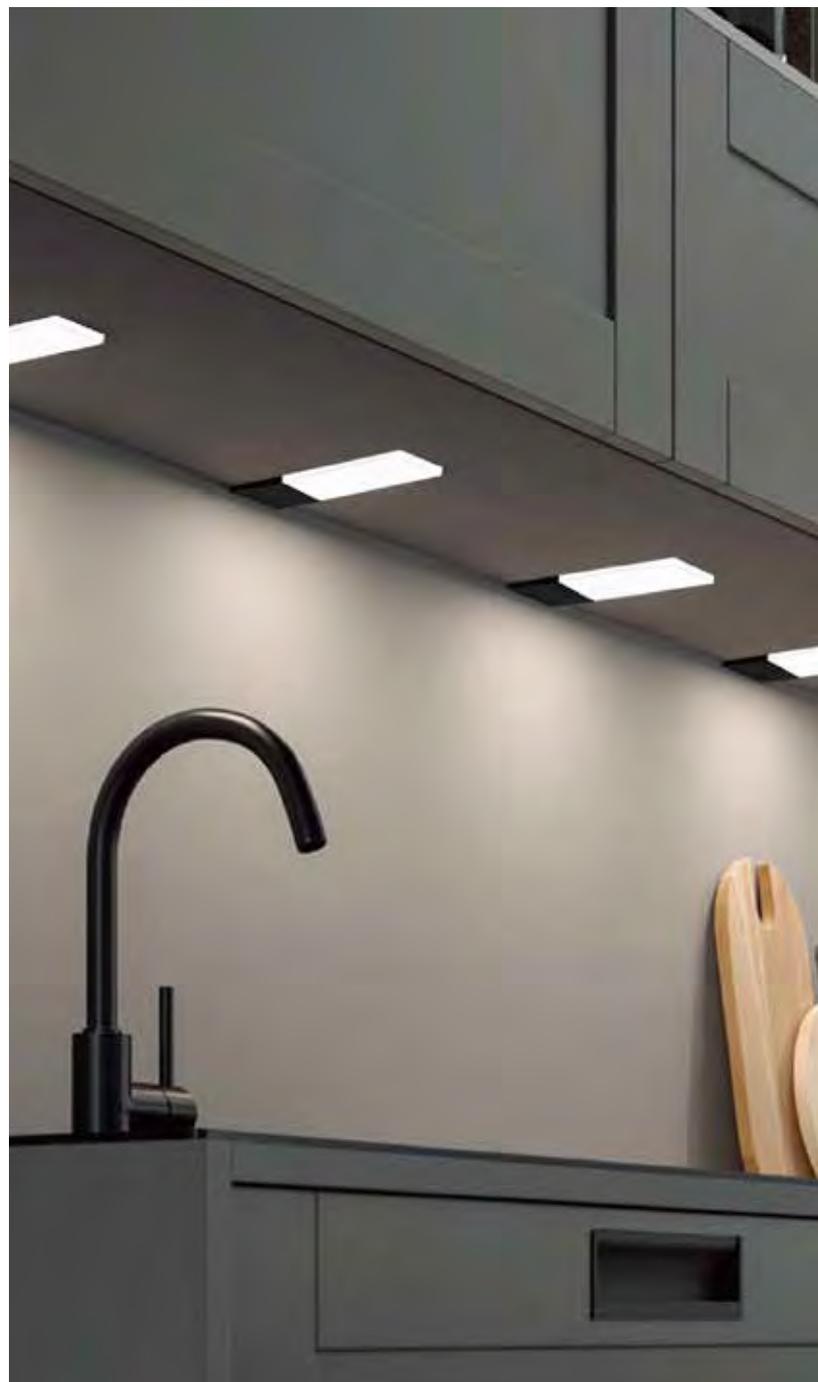

Natural White gives a cool crisp effect and enhances more modern kitchens with gloss, concrete and stainless steel finishes.

LED Lighting

Task Lighting

Sufficient lighting is a must-have in task based areas where hobs, sinks and even worktops are in use, as this aids safe cooking, washing and prepping. A range of LED options are available in aluminium and an on-trend matte black finish.

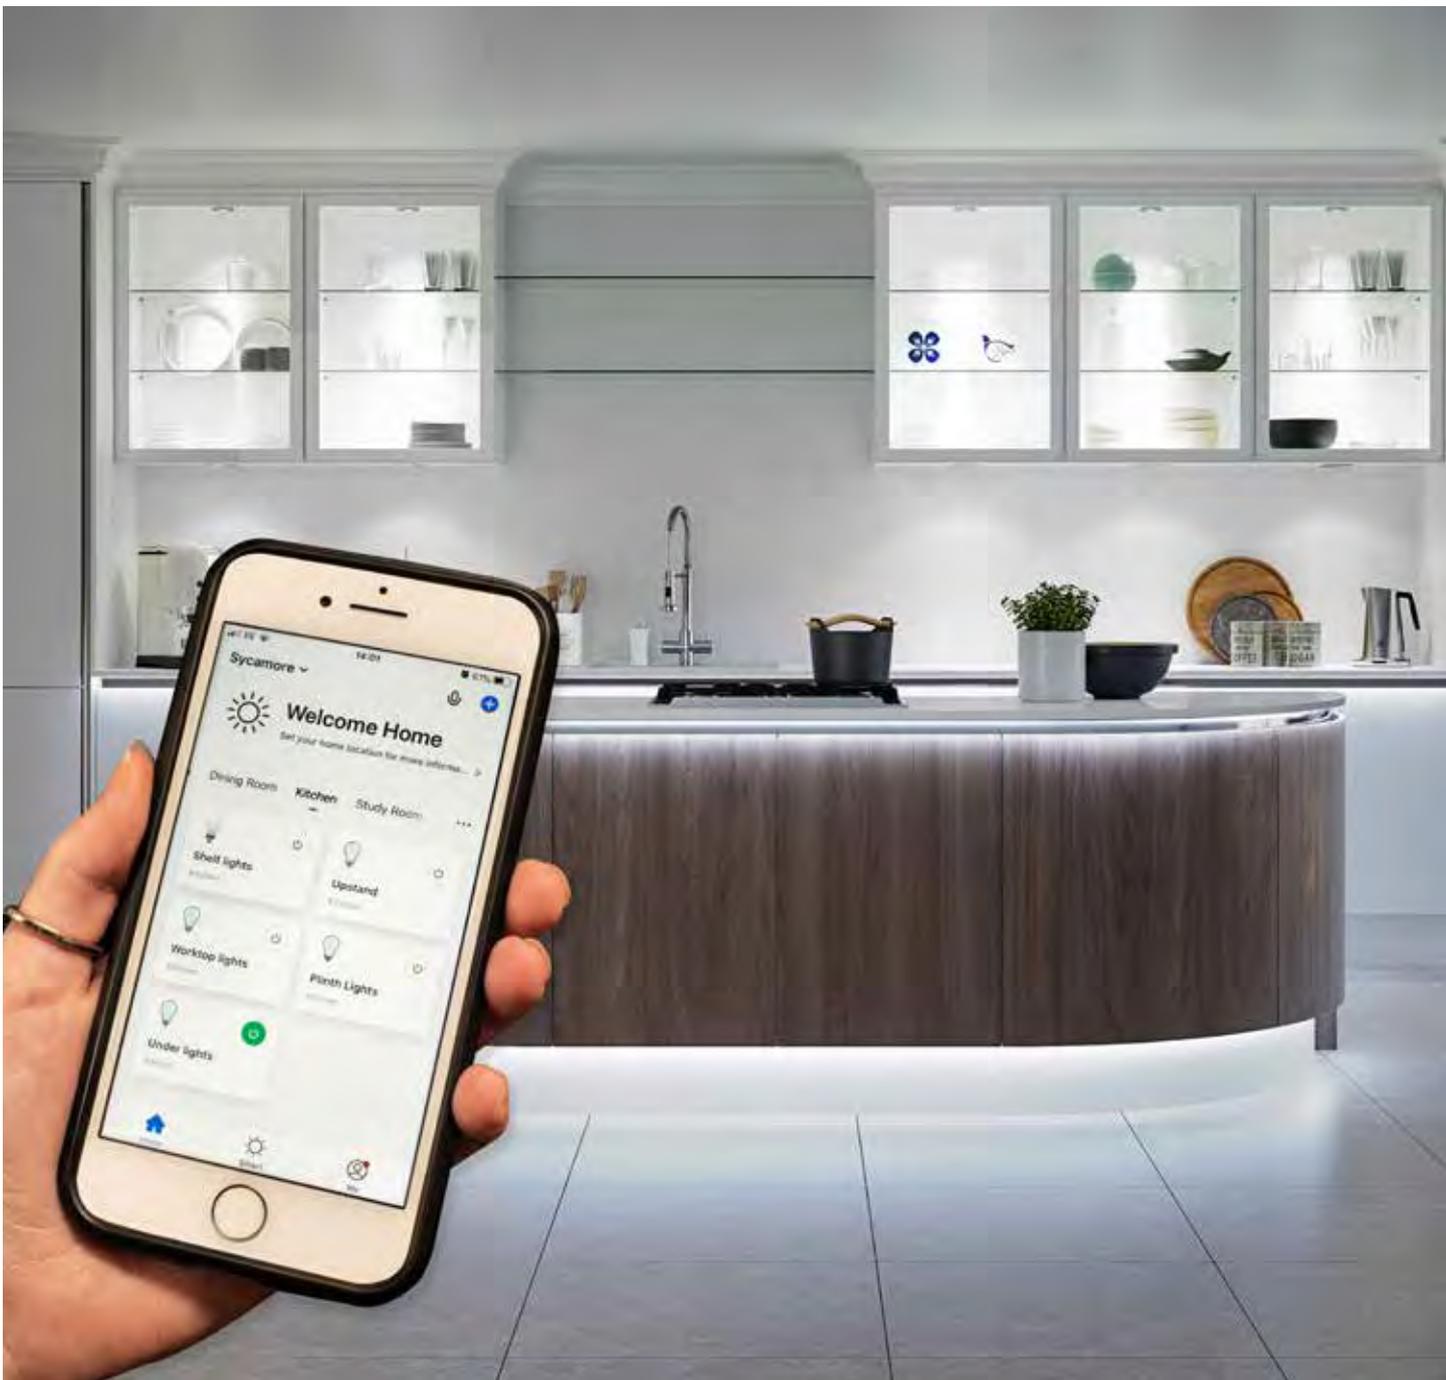

Under cabinet LED lighting in a trendy matte black finish.

Mood Lighting

Lighting that creates ambience in a kitchen setting can provide the most stunning effect and can transform a kitchen space better than anything else. Opt for recessed LED lighting under worktops, concealed above wall cabinets or even along the bottom of base units.

Convenience Lighting

Combine beautiful, functional lighting with everyday practicality through a range of switches and control modules for ultimate convenience. Choose from a range of wireless touch switches or control lighting from your smartphone via a Wifi app, or through voice control systems such as Alexa or Google Voice Control.

Effective cabinet lights combined with LED strip lighting installed underneath the worktop surface of an island are clever ways to create the perfect atmospheric mood.
